South Africa is still the prime and preferred destination for first-time and experienced hunters. It is a very safe and secure destination, and we take care of all your needs. You will be met on arrival by our experienced guides, and they will also walk you to check-in on your departure date.

You and your travel partners will be treated to some of the finest hunting and luxury accommodations in the southern hemisphere while being taken care of by professional huntsmen and lodge staff. You will be accompanied by an excellent team of handpicked professional hunters and a guide best suited to meet your needs.

Your professional hunter will strive to ensure that you spot, stalk, and harvest the best trophies possible. You can hunt the way that is convenient to you and we cater according to your physical abilities. A recovery team and a trained skinner will be available to collect and prep your trophies in the field.

We will build your safari around your physical abilities. We cater to the novice as well as the experienced hunter and are honored to say we had many hunters - women and children who started their hunting careers with us.

South Africa is home to eight biomes that flow together in breathtaking ambiance, from lush green thickets and sweet grassland to rocky outcrops and the green Kalahari veldt. Our main hunting camp is situated in the Free State Province.

Our hunting areas vary in size from around 3,000 acres to our latest addition of 36,000 acres.

The buyer has three years to take the hunt from the day of purchase. We ask that you try to get your dates nailed down as soon as possible to avoid a scheduling conflict. Our hunting season runs from March through November.

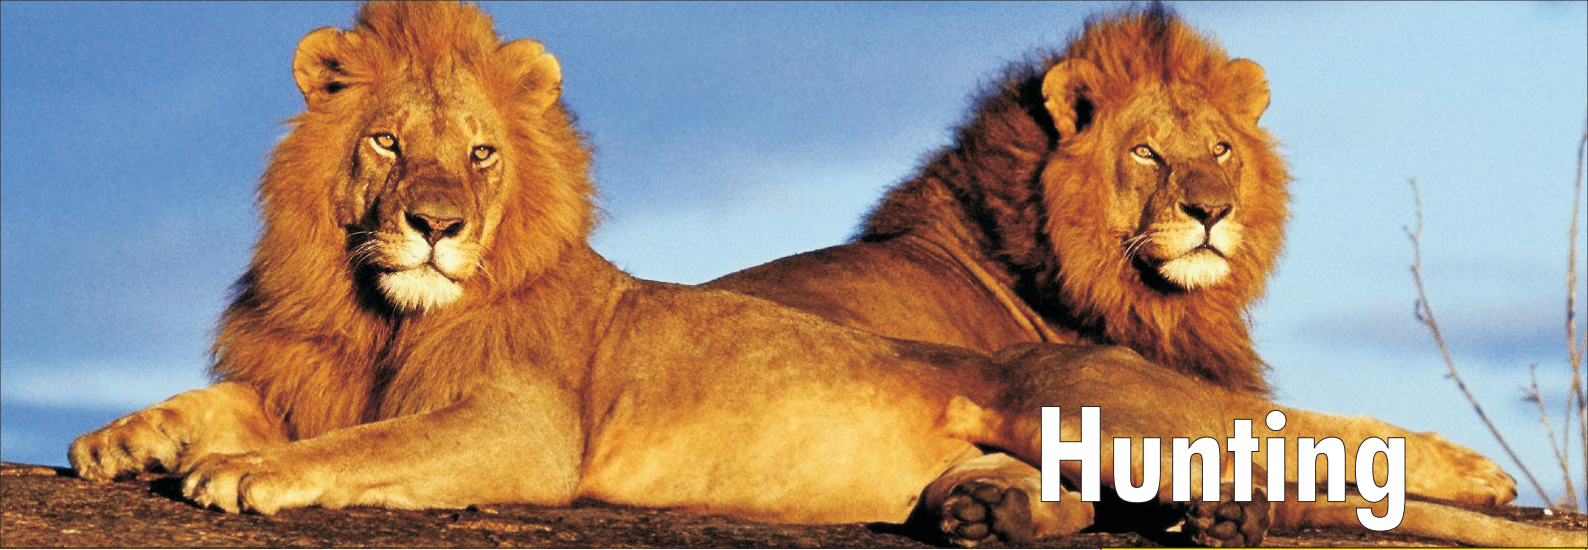

Important to know at this stage for scheduling your safari that you can add additional hunting days at US\$280.00 per person per day.

You are welcome to add more species from our price list at less than 10% of the listed price. (Prices are available on request)

We operate and hunt out of different lodges in which we accommodate our clients and you will be accommodated according to the species you want to hunt. This way we try to limit driving time and give you more time for hunting.

Please bear in mind that this is a hunting safari and not a photographic safari as such. Photo safaris can be accommodated per quotation or can be combined before or after your hunting safari
